My condolences to the family. Steve was a really good person. I never got to meet him in person, however I spoke with him online enough through the last 6 years to know that he was a great guy. He was the first person to reach out to me when I was very new to hockey equipment, taught me what to look for in sales and how to go on about buying and selling. Steve and I didn't talk much but the fact that he took time of his day to talk to me and offer advice was amazing. He reached out to me and offered me equipment when he found out most of mine was stolen. That says a lot about his character and integrity. When he found out that I became a parent he reached out to me and congratulated me, gave me some advice on being a new parent. That meant a lot to me since no one really did that. My apologies on your loss, my best wishes go to you all. The world lost a very sincere and good man.

You have taken your final checkered flag, your last race is over... it is time to rest. Take care of those that loved you most from above the clouds... may you warm our hearts and bring smiles to our faces when we hear the tires squeal and the smell of burning rubber we will know you are near. - Hank

I got the pleasure of meeting Steve when he worked at the Hudson Ammaco in C.Falls. I was a Deputy Sheriff and would stop there weekly to visit with the boys. (Steve, Dusty, Jeff) On one occasion Steve requested my Cop Card which we were handing out to the kids. He said he had a friend who's kid collected them. A few days later when I returned, Steve had a big smile on his face as did the other guys. When I went up to pay for my drink, under the glass counter top was my cop card which had been altered to me wearing a big white bakery chef's hat along with a mustache. The boys all got a big chuckle out of that as did I.
I continued to run into Steve on different occasions throughout the years and was glad we had become friends.

I remember Steve rebuilding the engine in his 1968 Nova. He was so proud that he was doing it himself. He wanted to do it all without having his dad helping him. I will never forget the trip to Indianapolis and the US Nationals and staying in the back of my dad's pick up. God bless you Steve, you will be missed.

I can only say that it was an honor and privilege to know Steve even if just for a few short years. He was a stand-up guy and there is no one that you could have dealt with that could top him. I enjoyed talking to him, swapping stories and comparing notes - bench racing at it's best.

I am not much on religious beliefs but if there is any mercy in this world of ours, I truly hope that it is bestowed upon Steve and his family.

Please forgive me dear brother for not coming to see you before the end. I have been very ill and hard to leave the house. You have been in my prayers constantly. Memories of us growing up have wiped through my mind constantly. Remember when you went to the kiss concert in 76 and I wanted to tag along and you wouldn't let me? That I will always remember. And coming into your bedroom and listening to Steve Miller Band albums and Tom Petty I will always remember. You were such a good artist. I remember you drawing the covers of albums and I loved them. I just wanted to share a couple of my memories of you. I know that you are with mom and dad and grampa and grandma and aunt Minnie now. I know you are at peace out of pain and happy. I will love you always. Your sister, Trish
