“ *The best memory I can say about my mom is all of our drives and the endless joking around. Mom loved to hangout and always had a smile on her face. I love you mom and may your name always be remembered.*

The best memories I have of mom is her going off on my ex wife and telling her to get some help and get on meds and then go get it as soon as possible thanks though mom for always sticking up for me with all the dumb stuff and having you as our mom has been an honor for the fact is that no one could be as loving and caring and would take the shirt off your back for any one
