“ I had the privilege to work with David at Iowa Laser, I had a wood project that David had a hand in with the programming and he received a black walnut shelf from that endeavor, I still have mine and I would like to let his children know how this came about, your father was a very talented man, quite. but when he spoke, it was words of wisdom, he will be greatly missed and my life was better to have known him. I am sorry too hear of your loss.
