“ When I was 8 years old my Dad came up stairs and woke up my brothers and I and brought us down stairs to watch Neil Armstrong and Buzz Aldrin walk on the moon. I thought this was the most magical thing I had ever seen. That memory has had a huge impact on my entire life. It has sparked my interest in all types of engineering endeavours and moved me explore the world around me. This whole approach to living has enhanced my life beyond measure. Thanks Dad. Love you. Rest in peace.  
Your Son,  
Dean
