“ *David Herrmeyer,*

I spoke with my Mother this evening and she told me your Father passed away last Saturday. I was sad to hear this, but it caused me to remember the many happy times we had at your home during our school years.

Your Father was a very energetic and intelligent man. He had a full life and left a lasting legacy.

We get up to Denver from time to time. In fact, we will be there this coming weekend. If you send me your contact information, I'll call you while we are there and we can visit.

Please pass my condolences to your family.
